TABLE OF CONTENTS

1 INTRODUCTION

1.1 DISCONTINUATION INFORMATION

This discontinuation notice informs that sesamsec is discontinuing the manufacture of a number of products. All affected products and associated part numbers are listed in this document.

This notification is intended to inform our customers and partners, so they have the opportunity to respond and modify their product portfolio accordingly. Should you have any further questions regarding this product discontinuation, we stand ready to assist you at any stage, in order to minimize the impact of this product discontinuation on your business.

1.2 REVISION HISTORY

VERSION	CHANGE DESCRIPTION	EDITION
01	First edition	05/2023

2 PARTS AND PRODUCTS AFFECTED

The PDN comprises specific types of the Securyt Mifare Reader products. This relates to both, the OEM PCBs (i.e. modules) and the housing versions. A certain amount of product variants and derivates are affected, including customer-specific derivates.

The Securyt Mifare Reader with wide frame, the Securyt Mifare Reader for installation in on-site front panels series as well as the Securyt Mifare Reader with frameless Display will be discontinued with this PDN.
The product discontinuation of these three types also includes all variants, and all accessories items that differ among others by different cable connectors, plug connections, firmware options, different housing colors, etc. The common product names are **Securyt Mifare Reader with wide frame, Securyt Mifare Reader for installation in on-site front panels and Securyt Mifare Reader with frameless Display**, with optional amendments to these names.
Moreover, a part of the **Securyt Mifare Reader with small frame** will also be discontinued with this document. The specific types which are affected you can gather from the list below.

PART NUMBER	PRODUCT
HMD-TKSX2-YYY	Securyt Mifare Reader with wide frame plug connection and cable version
HMD-TKSX2-MO	Securyt Mifare Reader for installation in on-site panels plug connection and cable version

4 TIMELINE

Last time buy date

This date represents the last opportunity to place an order with sesamsec. All orders placed before and including the specified date will be accepted. All orders placed after this date will not be accepted, you will have to switch directly to the substitute product.

Last time delivery date

After this date, the specified discontinued products will no longer be shipped.

End of maintenance

Any maintenance or repair of the product no matter HW or SW will not be performed anymore after this date. Maintenance includes, but is not limited to the following operations:

- Fixing of small errors "bugs" in the SW (Non-Breaking Bugs)
- Implementation of new features and functions (mostly SW)
- Development / customization of SW and HW to maximize performance, stability and security

End of support

At the end of support date, all support of the product is no longer available. This includes, but is not limited to, immediate support to the partner or customer for technical issues in the field. Furthermore, support including technical assistance for existing or new installations. SLAs (Service Level Agreement) contracts are of course observed by sesamsec as long as they apply and until they expire.
